

ROADS & STREETS

Road excavation permit guidance

PDF resource | Updated 14 July 2026

Guidance for road excavation and related permissions.

Before proposed road work

- Describe the location, purpose and expected duration of the work.
- Prepare a safe access and temporary traffic-management outline.
- Identify any utility or reinstatement information that may be relevant.
- Use the roads service pathway to find the appropriate demonstration guidance.

ABOUT THIS RESOURCE

This guide is illustrative and does not grant permission to excavate or occupy a road.
